

# DANCE PLATFORM FOR SCHOOLS

AUTHENTIC DDR

## "IT'S TIME TO DANCE!"

Finally, a dance platform designed to last in a high abuse public environment. The School Platform is designed for the rough and tough abuse you can expect from having a lot of kids playing. The School Platform plays just like the real arcade machines, meaning kids get a better game experience than anything they can get at home. Make sure you have plenty of towels available, because participants are guaranteed to break a sweat as they dance to the beat. Give the kids what they want and give them a fun physical activity with the very best dance platform in the industry! The School Platform is backed by an incredible one year warranty and compatible with Playstation 2, Xbox, Gamecube, and even the Nintendo Wii!

### Ask about our School Kit!
